

Adriana County Local

By griggs

On a brisk autumn morning, handle the Henderson - Marlane local. Plan out your consist in preparation for the pickups and setouts as you traverse the line.

How to install: Drag the “content” folder into your RailWorks directory.

Requirements:

Payware:

[BNSF Locomotive Pack](#)

[Diesel Workshop ALCo C424 Pack 01](#)

[GP40-2 Loco Pack](#)

[Marias Pass](#)

[Norfolk Southern Coal District](#)

[Sherman Hill](#)

Freeware:

[ABStudios Crude Oil Train set](#)

[Adriana County](#)

[Mainelines FMC Plate C Boxcars](#)

[Mainelines FMC Boxcar Pack](#)

[Mainelines Stock Upgrade](#)

[Tru Rail Simulations PS 4750 hopper pack 1](#)

[Tru Rail Simulations PS 4750 hopper pack 2](#)

[Searchlight Simulations 23k gallon tank cars](#)

[Searchlight Simulations PS 4750 pack 2](#)

[Searchlight Simulations Rolling stock pack 02](#)

Notes:

- This scenario is incredibly long. It took me about five hours to complete, and it can take longer depending on how you've set up your train in Henderson.
- Instead of using Train Simulator's instructions, a work order detailing the pickups and setouts is included in the PDF and as a separate text document. Use the in-game map to find where cars are located and where you'll drop them off. Operation instructions are included where necessary.

WORK ORDER HENDERSON-MARLANE

MORNING

Activity starts at the maintenance facility in Henderson. Fill up your power, work your way to Marlane and return.
