82206+91108

Dec 2018 / Jan 2019

Description:

With the introduction of the new “Azuma” trains on the East Coast Mainline now on the horizon, the existing Class 91/Mk4 sets are now becoming surplus to requirements. July 22nd 2019 would eventually prove to be the scheduled beginning of the end with 91108 leading the line to the cemetery. Your task here is to take exactly that locomotive and its coaches accompanied by DVT no. 82206 from York down to London Kings Cross calling only at Stevenage on the way. Here’s hoping it’s an easy run despite the 26 late start from York..
