

LNER HST REMASTERED SOUND PATCH

Thank you for downloading this pack. This sound patch makes DTG's LNER HST use those from the AP MTU Enhancement Pack. I have taken artistic license here, and not all the sounds in that pack are used.

REQUIREMENTS:

- DTG LNER HST Remastered: <https://store.steampowered.com/app/1230275>
- AP Class 43 MTU/Mk3 Enhancement Pack:
https://www.armstrongpowerhouse.com/class_43_mtu-mk3_enhancement_pack

WHAT'S CHANGED?

- Locomotive uses engine and brake sounds from AP Enhancement Pack.
- Dampened passenger view sounds.
- Dampened idle sounds
- Rebound low-tone horn to space and high tone horn to B.
- Coaches now use run sounds from AP Enhancement Pack.
- Reskins are included in a different download, found here:

INSTALLATION

1. Extract the .zip file if you've not already done so.
2. Navigate to your RailWorks install
 - a. To do this, go on your Steam Library
 - b. Right-click Train Simulator
 - c. Go to Manage, then click Browse Local Files.
3. Scroll down and launch '**Utilities.exe**'. Along the top of the program that launches, go to package manager, then click install.
4. Find where you extracted this .zip file and double click on "**AudioPatchOnly.rwp**". When the green bar disappears, the audio patch will have been successfully installed.

There is no need to extract the *.ap file.
